DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group II, claims 4-10 in the reply filed on February 15, 2005 is acknowledged.

Specification

2. The disclosure is objected to because of the following informalities: 1) page 6, line 5, reference numeral "38" should apparently be replaced by --37--; 2) page 6, line 8, reference numeral "14" should apparently be replaced by --12--; 3) page 6, line 13, reference numeral "12" should apparently be replaced by --37--; 4) page 8, line 10, "our" should be replaced by --out--.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 9 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 9, line 9, "tub" should be replaced by --tube-- and "said u-shaped vapor extraction tube" lacks antecedent basis. Also, in claim 9, on line 10, --end-- should be inserted after "first", and "said second end" should be replaced by --a second end--.

Claim 10 fails to further limit the structure as recited by instant claim 9.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 4-8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by either Nurmi (Fig. 1; col. 4, lines 28-34, 58-67; col. 5, lines 1-67; col. 6, lines 1-65; col. 7, lines 59-67; col. 8, lines 30-60) or Partus '398 (Abstract; Figs. 1 and 2).

Allowable Subject Matter

7. Claims 9 and 10 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The prior art of record fails to disclose or suggest a bubbler structure including a liquid level set tube positioned as specifically recited in instant claim 9.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
